SWMPQIC wants to hear from real families what it's like to be pregnant, give birth, and to care for your infant while living in Southwest Michigan. Based on what is shared during the listening sessions, SWMPQIC will decide how to spend their time, effort, and money over the next couple of years to improve the health of moms and babies. Sharing your experience can make a difference.

Come share your thoughts and experiences, get \$50 dollars and FREE stuff, while helping others in Southwest Michigan.
